Contents of Volume 61

Number 1

1 Acoustic power flow measurement in a thermoacoustic resonator by means of laser Doppler anemometry (L.D.A.) and microphonic measurement
H. BAILLIET, P. LOTTON, M. BRUNEAU, V. GUSEV, J.C. VALI'ERE & B. GAZENGEL (France)

13 Exact solutions for free longitudinal vibration of stepped non-uniform rods
Q.S. LI (Hong Kong)

29 Asymptotic formulas for the acoustic power output of a clamped annular plate
W.P. RDZANEK JR & Z. ENGEL (Poland)

45 Experimental characterization of engine crankshaft rumble noise signatures
T.C. LIM & A.J. WITER (USA)

63 Frequency perception as a measure of room acoustic quality
D. JEONG & F.R. FRICKE (Australia)

81 Surface mobility over a square contact area of an infinite plate: experimental measurements and numerical prediction
J. DAI, J.C.S. LAI, Y.J. LI & H.M. WILLIAMSON (Australia)

95 Measurement error minimization of bending wave power flow on a structural beam by using the structural intensity techniques
H.S. KIM (South Korea) & J. TICHY (USA)

107 Calendar

109 Announcement

Number 2

111 Surface diffusion
Y.W. LAM (UK)

113 Diffusor application in rooms
P. D'ANTONIO (USA) & T.J. COX (UK)

143 Using grating modulation to achieve wideband large area diffusers
J.A.S. ANGUS (UK)

167 Acoustic phase gratings for reduced specular reflection
T.J. COX (UK) & P. D'ANTONIO (USA)

187 Definition and measurement of random-incidence scattering coefficients
M. VORLÄNDER & E. MOMMERTZ (Germany)

201 Determination of scattering coefficients from the reflection directivity of architectual surfaces
E. MOMMERTZ (Germany)

205 Prediction of the scattering properties of surfaces by laser scanning of height profile
T. JOHANSSON & M. KLEINER (Sweden)

225 Visualization of the sound field around a Schroeder diffuser
K. FUJIWARA, K. NAKAI & H. TORIHARA (Japan)

237 An assessment of the accuracy of a hybrid room acoustics model with surface diffusion facility
M.J. HOWARTH & Y.W. LAM (UK)

253 Visual assessments of the surface diffusion properties of concert halls
F.R. FRICKE (Australia)

263 Calendar

265 Announcement

Number 3

271 Guest editorial
J.L. GUYADER (France)

273 Characterization of building equipment
M. VILLOT (France)

285 A pseudo-forces methodology to be used in characterization of structure-borne sound sources
M.H.A. JANSSENS & J.W. VERHEIJ (The Netherlands)

309 Identification of vibration sources
C. PEZERAT & J.L. GUYADER (France)

325 Towards a structure-borne sound source characterization
B.A.T. PETERSSON & B.M. GIBBS (UK)

345 MIMO technique for simultaneous measurement of translational and rotational mobilities
L.H. IVARSSON & M.A. SANDERSON (Sweden)

I Calendar

Number 4

371 Editorial
P. LORD (UK)

373 Modelling of sound fields in enclosed spaces with absorbent room surfaces
Part II. Absorptive panels
S.M. DANCE & B.M. SHIELD (UK)

385 Modelling of sound fields in enclosed spaces with absorbent room surfaces Part III. Barriers
S.M. DANCE & B.M. SHIELD (UK)

399 The determination of the acoustic properties of sound sources actively controlled in a square duct
K.-T. CHEN & J.-I. LIN (Taiwan)

413 Sound field radiated by an infinitely long elastic plate strip in contact with a vertical reflecting surface
K. MICHISHITA, Z. YAMAGUCHI, K. SAKAGAMI & M. MORIMOTO (Japan)

427 Acoustic waves in a layered inhomogeneous ocean
F.D. ZAMAN & Z.I.A. AL-MUHIAMEED (Saudi Arabia)

441 The effectiveness of floating slab track system — Part I. Receptance methods
F. CUI & C.H. CHEW (Singapore)

455 An approach utilizing membrane materials to regulate modal characteristics of rooms
T. SAKUMA, T. IWASE & M. YASUOKA (Japan)

Short communication

469 A 64 element acoustic volumetric array
J.M. RIGELSFORD & A. TENNANT (UK)

Technical note

477 Acoustoelastic determination of local surface stresses in polymethylmethacrylate
Z. WEI, X. ZHOU & Y. CHENG (PR China)
